SUMMARY

Passionate and dedicated Software Developer transitioning from student to professional. Through personal projects, game jams, and industry experience, I have built practical skills in C#, Unity, Flutter, Firebase, and Git while developing games and mobile applications. I enjoy solving problems, learning new technologies, and creating software that delivers meaningful user experiences. I'm excited to contribute to a collaborative team, continue growing as a developer, and make a positive impact through technology.

SKILLS

Technical Skills: Unity, C#, Flutter, Dart, Design, Version Control
Soft Skills: Communication, Adaptability, Problem Solving, Creativity

PROJECTS

Github, Projects and Codebase are securely sourced and located here

EXPERIENCE

Game Developer	05/2026 - 06/2026
GreenQuest Innovations, Remote	
- Rebuilt the mobile game from the ground up, delivering a modular architecture that improved maintainability and scalability. - Optimized game performance by reducing APK size, improving load times, and enhancing the overall user experience through a complete UX/UI overhaul. - Implemented new gameplay mechanics and systems from the updated Game Design Document (GDD), while collaborating with the team using Git throughout development.	
Game Designer (Co-op Freelancer)	11/2024 - Present
Creotly Studios, Remote	
- Managed source control systems such as Git to ensure version control of projects. - Collaborated with Game programmers to ship mobile games - Troubleshooted bugs in production code and resolved them efficiently
